

... is being developed by the Breakers Development Corporation of Naples, from designs prepared by a prominent local architect.

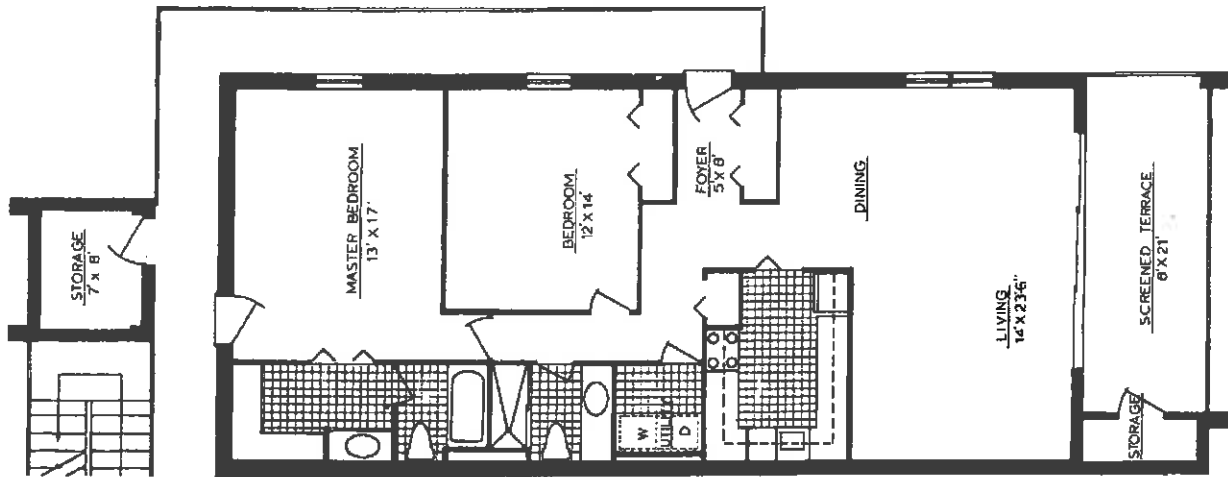

Interior decorators assisted in providing the finest interior arrangements, which afford versatile furniture and drapery placement, each designed to take every possible advantage of Beachfront Florida living.

The buildings are being built to the highest standards and specifications in concrete block, fireproof, soundproof construction by local contractors with years of experience in this type of building.

Fulfilling the goals of carefree maintenance and restful privacy, the Breakers is an achievement in careful planning and architectural detail.
